

Investment Funds in Your ELCA Retirement Plan

Fund Managers

The ELCA investment funds are investment pools managed under the supervision of Portico Benefit Services. They are not mutual funds. Portico is responsible for establishing the investment objectives and strategy for the various investment choices in your ELCA Retirement Plan.

Where Portico does not manage assets directly, Portico's investment staff identifies and hires investment managers in each investment category to assist in carrying out Portico's strategy. The current investment manager(s) of each ELCA fund is shown below.

About Our Funds

You should carefully consider the target asset allocations, investment objectives, risks, charges and expenses of any fund before investing in it. All funds, including ELCA funds, are subject to risk and uncertainty. Past performance is no guarantee of future performance. Funds managed by Portico Benefit Services, including ELCA funds and the ELCA Participating Annuity Investment Fund, are not insured or guaranteed by the Federal Deposit Insurance Corporation, any other government agency, or the ELCA. Losses or underperformance in the markets will cause a reduction in monthly participating annuity payments. Fund assets are invested in multiple sectors of the market. Some sectors, as well as the funds, may perform below expectations and lose money over short or extended periods. See the *ELCA Investment Fund Descriptions* and the *Investment Memorandum for the ELCA Participating Annuity Trust* for more information about the ELCA funds.

Neither Portico Benefit Services nor the ELCA funds are subject to registration, regulation or reporting under the Investment Company Act of 1940, the Securities Act of 1933, the Employee Retirement Income Security Act (ERISA), the Securities Exchange Act of 1934, the Investment Advisers Act of 1940 or state securities laws. Members, therefore, will not be afforded the protections of the provisions of those laws and related regulations.
